

I am very thankful for the New Jersey Do Not Call law and believe that the federal law should take example. Overturning this law will inconvenience most residents in the state as we have seen the great benefits of peace of mind it has brought to its residents. The FCC does recognize the fact that Telemarketing is a burden on the citizens of this country and has taken steps to remedy the situation. Now it needs to take final steps to stop this burden by using New Jersey as an example of how effective it's law has become (nearly 100% of all telemarketing stopped!).
